// Medical card // SSI // Other (explain) \_\_\_\_\_  
// WIC Voucher // Unemployment \_\_\_\_\_

**AUTHORIZATION FOR SURGERY**

I hereby authorize the licensed veterinarian contracted by the Humane Society of Nelson County to surgically sterilize my pet and to immunize against rabies. I also give permission for other treatment deemed necessary by the veterinarian, such as hernia repair or treatment of a wound or abscess, and I understand that there is no additional charge for these. I understand that the Humane Society veterinarian may not be available for follow-up, and that other veterinary services (*including possible complications of surgery*) may have to be sought elsewhere, and at my expense.

By signing this form, I verify my understanding that surgery and anesthesia involve some risk to my pet, and that the risk is increased in pets that have had no previous routine veterinary care, especially older pets with no preliminary laboratory tests. The undersigned agrees to hold harmless and release from liability both the Humane Society of Nelson County and/or its agents for any injuries or complications arising from surgery authorized by this consent form.

\*We routinely place a small "x" tattoo in the pet's left ear as permanent proof that the animal has been spayed or neutered. Please tell us if you do NOT want that done. We also treat for fleas so tell us if you have recently put any kind of flea, mite, or tick control product on your pet. There is no additional charge for rabies shot or flea treatment.
